Building Bridges with Traditional Knowledge

An International Summit Meeting on Issues Involving Indigenous Peoples, Conservation, Sustainable Development and Ethnoscience

www.botany.hawaii.edu/traditionalknowledge

May 28 - June 2, 2001
 Hilton Hawaiian Village
 Honolulu, Hawai'i

'a'ole pau ka 'ike i ka hālau ho 'okahi
 not all knowledge is gained in one school

Summit meeting Goals

- Provide an open, sharing environment through which conversations and relationships may be built between people who have or use traditional knowledge and natural resources.
- Encourage restoration and preservation of traditional knowledge and cultures.
- Re-evaluation of social and economic priorities in light of cultural rejuvenation.
- Provide a balanced forum for voices of culture, conservation, science, and education.
- Educate the public about key issues in conservation, development, and ethnoscience.

Contact: Building Bridges with Traditional Knowledge; 3190 Maile Way, 101; Honolulu, HI 96822-2279, USA

Poster sponsored by the University of Hawai'i Outreach College and the Hawai'i State Department of Economic Development & Tourism.
